

Leadership Fundamentals: Finding the Leader in You

September 16-19, 2024 – Salina, Kansas

ABOUT THE COURSE:

This course is designed to enhance the leadership qualities of supervisors across various levels of the organization by deepening their understanding of leadership dynamics, enhancing interpersonal skills, and promoting ethical management practices. The training spans four days, totaling 32 hours, structured around interactive modules that address critical aspects of leadership in the modern workforce.

ABOUT THE FACILITATOR:

CAPTAIN REX M. SCISM (Ret.) is a 32-year law enforcement veteran and former director of research and development for the Missouri State Highway Patrol. He also had a successful military career, retiring from the Missouri Army National Guard after 20 years of service. Mr. Scism served as a public safety and private sector consultant and instructor for over 20 years. He formerly served as an adjunct faculty member in the Department of Criminal Justice for both Columbia College and the University of Central Missouri, and is a frequent speaker, contributor, and author to multiple sources about various public safety and leadership topics. Mr. Scism is a graduate of the FBI National Academy's 249th Session and currently serves as a part-time content developer for Lexipol.
